LITHUANIAN
MANUFACTURERS TRADE
MISSION FOR SWEDISH
CONSTRUCTION SECTOR

1. ANVALDA

Metal stairs, railings and balconies

Swedish partner profile: commercial and apartmental building construction companies, stair installers/resellers

Employees: 51

Established: 2008

Certificates: 1090-2, execution class up to EXC2

Factory: 3.500 sq. m. in Lentvaris, Lithuania

We export 98% of our production to Scandinavia. Growing demand in construction market conditioned in our expansion to new 3ha premises since 2020.

NOT JUST ANOTHER STAIRS PRODUCER

Most of our customers come back and also recommend us to their partners.

Why?

They can be sure that we will take care of everything from A to Z, pay attention to every screw and engineering detail (ratio of 10 engineers to 30 manufacturing employees says it all) and run manufacturing process responsibly.

Stairs and/or handrails come to construction site conveniently packaged and includes all needed mounting parts.

That means smooth and fast installation process, happy customers and safe users.

6. RECON MODUL

Pre-fabricated modular bathrooms

Swedish partner profile: hotel, student and social housing construction companies

Employees: 31

In construction business since: 1994

Certificates: ISO 9001, 14001 and OHSAS. Sintef - in process.

Factory: 3.000 sq. m., Visaginas, Lithuania

Specialists in pre-made bathrooms, experienced in equipping Swedish, Danish, UK hotels, social and student housing.

WHY PRE-MADE BATHROOM?

50X LESS TIME TO INSTALL

Bathrooms are one of the most time consuming parts in construction projects.

We transport the ready-made bathroom to your construction site as soon as you are ready to do the installation.

NO HEADACHES

When all you need to do is:

1. Lift the module to correct floor
 2. Connect to engineering networks
- ...bathroom works become "pleasure" instead of "pain" and "bottleneck".

You deal with only one supplier instead of ten or more.

BETTER QUALITY THAN MADE ON SITE

Producing in-house enables us to easily track materials and their installation process, perform necessary testings and make timely changes if needed.

5 YEARS GUARANTEE
